

Little Elm ISD Long-Range Facilities Planning Committee

Meeting 2: April 10, 2017
Parking Lot Questions/Comments

Question #1 – “What is the viability of turning Zellars back into an elementary school?”

Answer Q#1 – All options are on the table at this time, including Zellars. The only part of turning Zellars back into an elementary school would be the issue of then needing to go to voters for bond approval for an administration building, day care center, and alternative school. We would need to spend approximately \$20 million to duplicate Zellars. Therefore, we might as well build a new elementary school. There may be one option that might accomplish the same thing that will be discussed by the architects.
